

DOMAIN DISCUSSION

Towards Health (Cancer) - specific relevant STI policy questions

Group discussion agenda

1. Health Scope in IntelComp (ca. 5 min)
2. Round table of the STI priorities and needs in agenda setting/evaluation in the domain by each stakeholder in the group (ca. 25 min)
3. Policy questions (ca. 80 min)

**GROUP DISCUSSIONS CLOSE AT 16:50
AND AUTOMATICALLY TAKE YOU TO THE PLENARY**

Health scope in IntelComp: EC plans to tackle cancer

Over €3 billion invested in +/- 2000 cancer R&I projects

The European Beating Cancer Plan

Sets concrete goals to achieve in 4 strategic areas: control and prevention, diagnosis and screening, treatment, quality of life of survivors and caregivers

Cross-cutting themes: **research and innovation**, digital and personalised medicine, and reducing inequalities

R&I flagships :

Knowledge Centre on Cancer (2021)

European Cancer Imaging Initiative (2022)

Examples of actions

- Secure access and sharing of patient data in the European Health Data Space (2021-2025)
- Expanding European Cancer Information System (2021-2022)

Application

- Integrated approach cross policy areas
- Builds on the existing

European Cancer Information System, ERNs on rare cancer, the Innovative Partnership for Action Against Cancer, European Commission Initiative on Breast Cancer...

Contributes & informs

The European Cancer Mission

One of five mission areas under the umbrella of Horizon Europe, focused on the **future of research and innovation**

Objective: achieve a measurable goal that could not be achieved through individual actions

Portfolio of actions : research projects, policy measures or even legislative initiatives

Preparatory phase

How can I help IntelComp?: Discussion on policy questions: group discussion in two break out rooms
